

## Pre-Op Checklist

- Be realistic. Plan for the worst, but hope for the best.
- Watch [this video](#) about the healing timeline.
- For the first 1-2 weeks post-op:
  - Find a caregiver to help you
  - Find someone to help with pets/children/dependents.
- Join a support group on Facebook, here are two that I recommend:
  - My group, [Hip Replacement Support](#)
  - A group that I admin, [Hip Replacement Group for Active People](#)
- Sign up for the Your Hip Journey email system on [HipVlog.org](#)
- Plan to take off work for as long as possible.
- Buy things to support your recovery, [here](#) are some items I suggest.
- Watch [this video](#) for secrets to a quick recovery and practice the things you will need to do differently post-op like:

- Using crutches.
- Sleeping on your back.
- Daily activities without using or bending your operative leg like:
  - Getting up/down from the toilet.
  - Getting in/out of bed and the shower.

- Do some upper body strengthening exercises because you will rely more on upper body strength during your early recovery.
- Prehab to improve fitness and flexibility around hips with guidance from a Physical Therapist or your Surgeon.
- Relocate daily use items for easy access.
- Clear obstacles from the areas you will frequent.
- Get dental work done, but check with your hip surgeon first.
- Ask your surgeon when you must discontinue medications before surgery.
- Re-watch [Pete's Pre-op Checklist](#) video.
- Buy or prepare and freeze high protein snacks and meals.
